LAFAYETTE INTERCEPTOR & OUTLET PROJECT CONSTRUCTION NEWSLETTER JULY 2012, Issue No. 1

CONSTRUCTION GETS UNDER WAY

The Flood Control District of Maricopa County recently awarded a contract to Pierson Construction Corporation to construct approximately 11,270 linear feet of storm drain, a storm drain collection system, waterline and sewer line relocations, and large concrete structures in the vicinity of Lafayette Boulevard between 44th Street and Arcadia Drive. Additionally, major storm drain construction will occur along the west loop of North Village Drive and through "The Park" office complex located north of the Lafayette Boulevard limits. Principal construction features for the project include: constructing a reinforced concrete pipe storm drain trunk line; catch basins; connector pipes; roll curb along the south side of Lafayette Boulevard; removal and replacement of existing asphalt within the affected roadways; replacement of existing landscaping and striping; waterline relocations; and sanitary sewer relocations.

PROJECT LOCATION AND CONSTRUCTION HOURS

The project is located within the city of Phoenix, north along Arcadia Drive from the Arizona Canal, then west along Lafayette Boulevard, then north through the west parking lot of "The Park" office complex, crossing Camelback Road and north along North Village Drive to 44th and Colter streets. Construction will begin August 20, 2012 and is scheduled for completion in approximately September 2013. Construction hours will be Monday through Friday, 6a.m. to 4p.m. from August 20 to September 30, 2012 and Monday through Friday, 7a.m. to 5p.m. from October 1, 2012 to April 30, 2013. Night work and weekend work may occur as needed in non-residential areas.

WHEN TRAVELING THROUGH THE AREA

Throughout this project, lane restrictions and delays or temporary road closures are anticipated. Please obey the traffic signs and flagmen when driving through the area and allow extra time to your travel schedule to accommodate traffic delays. Please talk to your children about the importance of keeping a safe distance from the construction zone. Construction sites can be very tempting to children. We appreciate your assistance in ensuring your children remain safe.

The first phase of construction activities will occur August 20 to October 2012.

- Installation of storm drain pipe and structures will begin on Arcadia Drive just north of the Arizona Canal to Lafayette Boulevard.
- Arcadia Drive between the Arizona Canal and Lafayette Boulevard will be closed and restricted for local traffic only. Residents living in this area will have access to their properties and will be detoured to and from Lafayette Boulevard. All other traffic will not be allowed in this area and will need to use Lafayette Boulevard to 56th or 44th streets. A flagger will be on site to assist.

During the improvement effort, you will receive regular updates on the progress of the project. In the meantime, if you have questions or concerns about the improvement effort, please call the 24-hour hotline at: **1-877-349-1433.**
