

Ventilator Request Guidelines

It is the intent of Maricopa County Public Health to distribute ventilators in the most optimal, effective, equitable, and efficient manner.

Please follow the steps below to submit your request:

1. **Review [CDC's Strategies to Allocate Ventilators from Stockpiles to Facilities](#).** This guidance details how ventilators will be strategically and ethically distributed among healthcare facilities in Arizona during COVID-19
2. **Determine your need.** Consider the number of and preferred type of ventilator. Please refer to the Ventilator Request Guidelines for a complete list of considerations.
3. Please submit a healthcare order form through the following link:

<https://forms.gle/qHcx3wGpn2oM6LoP7>

DON'T FORGET!
Please keep EMResource updated! Your request will be compared against EMResource data provided at the date/time of your request.

Next Steps...

1. A ventilator request will be created on your behalf by MCDPH
2. MCDPH will assist you in procuring a ventilator from the following sources:
 - Local Warehouse
 - Hospital Partners
 - DEMA Request

Please follow the listed steps to request ventilator distribution if you are in need of immediate resource support.

Ventilator Distribution Considerations:

- Number of hospitalizations
- Percentage of hospitalizations with critical illness requiring critical care
- Percentage of critically-ill patients needing ventilator support
- Number of ventilators already present in facility
- Number of ventilators anticipated to be available from surge contracts of sharing agreements
- Ventilators in use that may be available for future use
- Number and Type of Ventilators needed
