***Note:** As of December 31, 2012, all Plan of Development applications are subject to ARS §11-1605.
- As of September 13, 2013 all Residential uses are excluded per ARS §11-1605 M.2.

INTRODUCTION

All development involving non-residential zoning districts, two-family or multi-family residential development in a two-family residential zoning district or multi-family residential zoning district, or property with a Unit Plan of Development (UPD), Planned Area Development (PAD), or Planned Development (PD) overlay shall be subject to a Plan of Development (POD) approval as set forth in the provisions of Maricopa County Zoning Ordinance (MCZO).

The statute sets up two types of review timeframes: Administrative and Substantive. The Board of Supervisors (BOS) through the P-30 Licensing Timeframes Ordinance, has adopted a 90 (working) day administrative timeframe and a 180 (working) day substantive timeframe for PODs. An application related to a residential use is not subject to the statute. An application that is part of design build project may establish negotiated time process during the pre-application meeting.

GENERAL PROCESS

Obtaining a POD is an administrative approval process involving a precise site plan, narrative report, and other supporting documentation (see attached checklist). Approval of a POD is required before any development of the property can occur. The use, height, yard, intensity of use, parking, loading and unloading, and any additional regulations shall remain the same as specified in the primary or approved UPD zoning district.

Per MCZO, Section 306, an application and phasing plan, if proposed, for a POD shall be submitted to the Planning and Development Department through the One Stop Shop (OSS) on an official form provided by the Department. The application shall satisfy the submittal requirements as well as pertinent regulations as set forth in the provisions of the MCZO or from other County departments. The application shall contain sufficient information for staff to determine whether the proposal meets the requirements of the County.

A pre-application meeting is recommended.

Please note there is a fundamental difference between the site plan required for a POD and that required for subsequent permits. In the case of a POD, the site plan must convey the conditions that will ultimately exist at build-out, whereas the site plan submitted for construction permits may only consider existing structures and those contemplated by that/those particular construction permit(s).

ARS §11- 1605

As of September 13, 2013, the Plan of Development (POD) process shall be subject to ARS §11-1605, a State statute that mandates establishment of timeframes to either approve or deny a "license" as defined by the statute. The full statute may be viewed at:

<http://www.azleg.gov/arstitle/>

Administrative Review Period

The statutes allow for multiple reviews during the administrative review period.

Substantive Review Period

Only one review is allowed for the substantive review period. The County can amend the substantive review comments to address legal requirements not identified on the original substantive review comments.

The applicant can authorize a 50% time increase. This authorization can be given at time of application or at any time during the process.

After receipt of a POD application, the administrative review period begins and Planning will review for administrative completeness. The applicant will receive a formal response from their assigned planner and may be required to submit additional information. Once administrative comments have been given to the applicant, the timeframe clock will stop and will resume upon resubmittal of the application materials. Once the application is deemed administratively complete, the planner will formally notify the applicant that the project has entered the substantive review period and shall set a Technical Advisory Committee (TAC) date.

TECHNICAL ADVISORY COMMITTEE (TAC) REVIEW

After an application is deemed administratively complete, the assigned planner will set a date for the Technical Advisory Committee (TAC) to meet. The TAC is composed of representatives of the County's Planning, Transportation, Drainage Review, Flood Control, Storm Water Management and Environmental Services Departments, as well as representatives from any other County Departments, fire district, school district, City or Town, homeowner association, or other interested party that is in close proximity or has jurisdiction over the site. The owner or authorized agent is required to attend the TAC meeting.

Planning & Development Department

PLAN OF DEVELOPMENT PROCESS

TAC comments from all reviewing agencies will be given in writing to the applicant at the TAC meeting and can be discussed. The substantive timeframe clock stops from receipt of comments until the applicant makes a formal resubmittal.

At any time during the process, an applicant can check the status of their application by viewing the Citizens Access Portal on the Planning and Developments website:

<https://acela.maricopa.gov/citizenaccessmcoass/>

The applicant's assigned planner can also be utilized as a resource for checking application status. If at any time comments are given to the applicant, a notation will be made as to the administrative or substantive timeframe remaining which will not resume until a resubmittal is made. **Note:** It is very important to return the planner's comment memo upon resubmittal so that the appropriate statutory timeframe can resume.

POST-TAC REVIEW

Depending on the comments received at the TAC, the application materials (such as the site plan, grading and drainage plan, traffic impact study, narrative report, etc.) may need revisions. The owner or authorized agent must submit revised materials, reflecting the TAC comments, to the OSS, which will forward the revised materials to the appropriate agencies.

Once staff is satisfied that the technical requirements have been met, staff will make a determination regarding the request. Staff shall review the POD in accordance with submittal requirements, regulations, and policies. If staff determines that the proposal is consistent with the purposes and intent of MCZO, other pertinent regulations and policies, then staff shall grant approval and may impose conditions as deemed necessary to satisfy the provisions of MCZO or other applicable regulations and policies.

Staff may also find that conditions required for approval do not exist and, may therefore, deny the request. Alternatively, staff may forward the request to the Planning and Zoning Commission for a recommendation to the Board of Supervisors. If an application has been scheduled for a Commission meeting, the substantive timeframe clock will stop.

Additionally, a decision of denial can be made for the following reasons: 1) the Director finds that it is not possible to grant the application within the timeframe, or 2) the applicant has not provided additional or supplemental information within 365 days (not working days) of a written or electronic request for said information.

INACTIVITY

If an applicant has not made a resubmittal of application materials in either administrative or substantive review periods after six (6) months, the application will be closed due to inactivity.

APPROVAL TIMEFRAME

For all development subject to a POD, an approved POD and subsequent building permits are required prior to the commencement of any construction or development on the site. The owner or authorized agent shall ensure that required building permits for the site or first phase shall be issued within two (2) years of the date of approval of the POD. Prior to the date of expiration, the owner or authorized agent may file a single request via a Minor Amendment application for a one (1) year time extension authorized by the Director of Planning and Development. If the time frame has expired, the owner or authorized agent shall submit a new POD application.

AMENDMENTS

Any change or modification to an approved POD shall be considered an amendment to the POD. Staff shall determine whether changes constitute a Minor or Major Amendment according to MCZO Article 304.9. UPDs and PODs that were originally processed through the Board of Supervisors may be amended administratively, either as a Major or Minor Amendment, as set forth in the provisions of MCZO.

APPEALS

The conditions of approval of this Plan of Development may be appealed to the Hearing Officer pursuant to ARS § 11-832. Provide request for appeal to the Hearing Officer Liaison at this address within 30 calendar days of the administrative/ministerial approval date to schedule an administrative hearing.

DRAINAGE REVIEW REQUIREMENTS FOR PRECISE PLANS INCLUDING SPECIAL USE PERMITS

A detailed drainage report with respect to hydrology and hydraulics in conjunction with grading, drainage and paving plans may need to be submitted. The final drainage plan needs to be signed and sealed by an Arizona Registered Professional Civil Engineer and should address the following:

1. **Offsite Hydrology** – Need to determine the quantity, the entrance and exit points, and how the flow is to be routed through the site.
2. **Onsite Hydrology** – Need to show how the flows are to be routed to retention basins.
3. **Onsite Retention** – Need to retain water for the 100-year, 2-hour storm for the site, including adjacent right of way. Determine volume needed and the size and location of basins.
4. **Retention Disposal** – Provide testing results in conformance with Standard 6.10 for disposal of total ponding volume within 36 hours.
5. **Onsite Hydraulic Calculations** – Need to show hydraulic analysis for any channels, culverts, storm drains, or street drainage.
6. **Cross Sections** – Need to show perpendicular cross-sections through the site indicating property lines, swales, retention areas, finished floors, and street details.
7. **Finished Floor Elevations** – Need to show finished floor elevation and certification note.
8. **Topography** – Need to show natural and proposed contour elevations or spot elevations.
9. **Dry Wells** – If applicable, need to submit a copy of the dry well registration before final drainage clearance of a permit.
10. **Floodplains** – Need to show the delineated floodplain boundaries if the site is within a Federal Emergency Management Agency’s (FEMA) special flood hazard area. Will also need to apply for Floodplain Use Permit.
11. **Erosion Setbacks** – For washes and other watercourse channels an erosion setback will need to be determined, which meets Arizona State Standard 5-96.

Since complex drainage systems may require more detailed information, a meeting should be arranged with personnel from Drainage Review.
